EXPERIENCE

FWPS, Federal Way WA – College Technology Intern

SEP 2020 – CURRENT

My promotion to College Intern earned me higher clearance and extra responsibilities. During the Covid-19 lockdown contributed with the imaging of over 6,000 school computers and assisted with the preparation of over 7,000 scholar devices for remote learning.

- Installed and repaired desktops, laptops, projectors, scanners, and drives.
- Hands-on training of temporary staff, which included the imaging process of laptops, powerwash of Chromebooks, and the repair of computers.
- Managed interns to prepare computers for deployment.
- Utilized Intune, Remedy, Footprints, and Follet Destiny for workload management.

FWPS, Federal Way WA – High School Technology Intern

JUN 2019 – AUG 2020

During my first 3 months working in this position contributed to the imaging of 2,500 laptops.

- Set up and configured system user hardware and software applications and provided onsite IT and AV technical support for multiple staff members.
- Partnered with other IT interns to re-image schools, build CTE computer labs, and offer technical support.
- Supported customers having data connectivity issues, assisting with troubleshooting of software and hardware.
- Operated Help Desk and offered support over phone calls, Remote Desktop, and Quick Assist.

Slavic Gospel Church, Federal Way WA – Audio and Video Technician

AUG 2018 – CURRENT

Increased the stability and consistency of streams by 14%.

- Operated Audio and Video equipment in over 300 events.
- Leading a project on the construction of a NAS (Network Attached Storage) server. Currently in the process of fixing an old server and research of the TrueNAS/FreeNAS software.
- Received access to the entire building and equipment (keys, passwords, security codes).
