January - 2001 to Present

ImaginIT, LLC Vancouver, WA

Manager/System Administrator/Database Programmer/Web Designer

ImaginIT is a web services company. My management duties include providing our clients (primarily **real estate professionals**) with a wide range of web hosting, web site development, e-commerce, and customized programs and database services.

December - 2004 – March - 2009 K & G Construction Hillsboro, OR

System Administrator/System Analyst/Programmer

K&G Construction is a mid-size (25+ employee) company, with a small (9 node) in-house network. My task was to take a very old A/P, A/R, G/L, Payroll, Job Costing, Inventory system, running under Quick Basic, and bring it into the 'modern world'. Re-wrote their entire system/systems in ColdFusion/JavaScript with mySQL and MS-Access database tables.

January 2000 - January - 2001 TelAlaska, Inc. Anchorage, AK

Web Projects Director

TelAlaska is a telephone/network services company, providing services to the greater Anchorage area as well as outlying Alaska 'bush' communities. As web projects director my duties included overall web site design, client sales & marketing, tech support, as well as database programming using Cold Fusion and a variety of other Macromedia products (i.e. **Dreamweaver**, **Flash**, etc.) as well as many Adobe products, including **PhotoShop**.

January - 1995 – December - 2000 World Access Network, Inc.

President/CEO

World Access is an Internet Service Provider (ISP). As President/CEO and one of three Founders, I oversaw nearly all aspects of a small start-up business, going from a handful of dial-up Internet accounts to over 4500, in just a year and a half. Primary duties were sales/marketing, but I also set up the tech-support portion of our company, and personally trained each of the tech-support reps. Also assisted in the programming and database development of our Web Products and Services Division.

AA Tech Degree – Computer Career Institute – Portland, Oregon
