A mature, reative and adaptive Developer and a seasoned Business Systems Analyst with strong analytical and critical thinking skills, and a passion to build innovative applications from concept to programming, navigation, and UX/UI. Self-motivated, dedicated, quick learner with outstanding work ethic.

SKILLS

Web Tools

JavaScript, ES6, React, Angular, HTML, CSS, SQL, MySQL, IBM DB2, GitHub, REST API, WordPress, Heroku

Other Skills

Agile Methodologies, SCRUM, SDLC

Languages

English, Korean, and Chinese

EDUCATION

Bethel School of Technology / Woz U

March 2018 – October 2018

Certificate of completion, Full Stack Software Development

Acquired hands-on skills to program using JavaScript, build database-driven web applications using Node MVC and ReactJS Framework, and create richly interactive client-side apps. Worked 60+ hours weekly on individual and team projects. The school emphasized the students to learn how to cultivate and steward excellent character by caring more than others think is wise, risking more than others think is safe, dreaming more than others think is practical, and expecting more than others think is possible.

University of Southern California

September 1981 – December 1985

Bachelor of Science, Mechanical Engineering

Statics, Dynamics, Thermodynamics, Mechanisms and Mechanical Designs, fluid Mechanics, CAD/CAM, Programming with Fortran. Built wind-tunnel for aerodynamic design testing for objects for the final project.

PORTFOLIO

Mentor4me <https://mentor4me.herokuapp.com>

A full-stack web application that connects mentors and students to find, book appointments and communicate. Built using JavaScript, React, Bootstrap, MySQL and Node.js for the backend and deployed on cloud using Heroku. The app is responsive across all devices and the idea came from a real need while attending the coding bootcamp.
