About me

Experienced Help Desk Technician with a demonstrated history of working in the information technology industry.

I love the outdoors. I attempted a 2,200 mile thru-hike of the Appalachian Trail in 2020 but had to throw in the towel after the coronavirus pandemic closed down the eastern seaboard.

I am obsessed with technology. I have Cisco routers & switches in my house. I configured a high speed wireless network in the middle of nowhere using LTE and yagi antennas. I am a true grinder and love new opportunities to learn and expand my horizons.

I moved to Las Vegas to escape the California wildfires that literally destroyed my entire community.
