## Work History

### **ON Semiconductor – Operator 3, Test Wafer SME**

Gresham, OR                      March 2017 – Present

- ◆ Test Wafer SME (Subject Matter Expert) – Ensuring test wafers are readily available and safe to use for scheduled tool qualifications and preventative maintenance. Understanding test wafer paths and flows for various areas/departments in the Fab. Monitoring test wafer uses and rework status, ordering new wafers and empty pods when necessary.
- ◆ Follow specifications and protocols while qualifying and operating tools.
- ◆ Highlighting quality and safety detail in all day to day operations and tasks.
- ◆ Training fellow operators on tools and software in areas I hold certifications in, as well as creating an efficient training plan to follow.
- ◆ Consistently sought out by fellow operators for buddy checks on tools, and questions about test wafer/recipe flows in areas which I hold certification.
- ◆ Follow specifications to recover interrupted lot processing on tools when running production or qualifying.
- ◆ Regularly check and update tool and production specification to ensure they contain the most up to date information and are easy to understand.

### **Miller Paint Company – Shipping/Receiving**

Portland, OR                      May 2015 – September 2015

- ◆ Prioritize, pick, and pull orders using software and RF scanner.
- ◆ Load orders and pallets with efficiency with freight organization in mind.
- ◆ Ensure all loads are securely wrapped and routinely check to make sure all items are accurate to the manifest.
- ◆ Loading/unloading trucks with the use of forklifts and electric pallet jacks.

### **Lemma Wine Company – Route Manager/Driver, Order Puller**

Portland, OR                      April 2012 – May 2015

- ◆ Prioritize, pick, and pull orders for drivers on shift.
- ◆ Plan routes based on daily deliveries and manage a team of six drivers.
- ◆ Deliver wine to local restaurants and stores.
- ◆ Maintain delivery truck cleanliness and functionality, record mileage each day and report/schedule any needed vehicle maintenance.

## Education

- ◆ Portland Community College – AAS Computer Information Systems – In Progress
- ◆ Mt. Hood Community College – GED – March 2007
