(808) 681-2126

## SKILLS

- In-depth knowledge of Microsoft Windows and Microsoft products with proficiency in hardware and software troubleshooting
- Experience working with Javascript, Python, CSS, and HTML
- Experience working with Cisco Networking systems and IOS
- Experience working with Windows Server 2012 & 2016, and MySQL
- Experience working in Linux environments (*Ubuntu, Fedora, Mint*)
- Up-to-date knowledge on latest software and hardware trends
- Competent in Adobe Photoshop, Lightroom, and Sony Vegas Pro
- Fluent in Japanese and English

## EDUCATION

### University of Washington, Seattle

August 22nd, 2017 - June 18th, 2019

### Highline College, Des Moines

September 23rd, 2019 - June 21st, 2021

*Network Security Engineer Associate's degree.*

## AWARDS/CERTIFICATES

- A+ Certified; (<https://kb.iu.edu/d/aidn>)
- Mile2 Certified Penetration Testing Engineer
- Network Security Engineer Associate's
- Volkswagen Technician Certification 2021

## GENERAL INTERESTS/HOBBIES

- I'm very deeply invested in the world of technology and security. I've always prioritized keeping up to date with new tech, privacy laws, breaches, and general news in the CyberSecurity world. I've dabbled in a bit of everything, from Linux scripting to mini-game development.

---

- I also have a passion for cars and general motorsports; I enjoy working on my own vehicles, and I'm in the process of restoring a 1994 Mazda Miata for automotive racing in my spare time.

## EMPLOYMENT

### **Wet 'N' Wild, Hawaii** - *Reservationist*

July 2016 - August 2017

- Responsibilities include booking tours to Wet N' Wild working with tour agencies and large-scale data entry, working extensively with Microsoft Excel and company-side booking software.
