

That's
me->

Personal

Some of my current/recent projects can be seen in a VSCode extension called Debounce (an accessibility tool for devs with hand tremors), a real-time gcode generator for smart CNC machine interactivity, and an AI based controller for hydroponic systems and algae bioreactors for home use, and a crowdfunding platform for ecological projects.

Recent Experience

Puppy Central LLC, Las Vegas, Nevada — 2019-2020

- Data scrapers/Web crawlers
- Build/maintain DB and API
- Support the salesforce team and web devs
- Endpoints on request
- Company software/software for the owners other businesses

Freelancing — 2016-2020

- Enterprise and interoffice software
- IOT builds
- Micro soldering
- Data scrapers

Freelancing has proven to be invaluable to me as a single parent and a self taught programmer.

CS Tutor (logic and processing) — 2018-2020

- Electronics
- CPU architecture
- TTL

I have several students who can provide great references.

Quikrete, Salt Lake, Utah — 2015-2016

- Back breakin' labor - done good
