## PROFILE

For the past 10 years I successfully ran an automotive small business. My previous experience involves Information Technology roles focusing on Network and Technical support.

## EXPERIENCE

### **Partner/Owner, AB Auto Sales LLC, Gettysburg, PA 2009-2019**

Managed all aspects of business operations in the purchase and sales of vehicles. Hiring and supervisory role of 8 full time employees. Oversee departments for diagnosis, mechanical repair, bodywork, paint, and detailing. Consistently generated revenues over 1.5 million dollars per year.

### **Level 2 Network Admin, PTG Performance, Arbutus, MD 2007-2009**

Responsible for network monitoring, ticketing, router and switch administration. Oversee clients network connections and data center servers. Troubleshoot outages with Telco and senior engineers. Perform router and switch installations.

### **NOC Technician, RCN Communications, Lanham, MD 2005-2007**

Duties included monitoring, diagnosis and ticketing cable modem network for Northeast ISP. Advised call center representatives. Troubleshoot Telco lines and equipment. Dispatch Field Technicians to problem areas.

### **Inside Sales, Savvis Communications, Herndon, VA 2003 2005**

Lead generation, cold calling c-level contacts of fortune 1000 companies. Presentation of technology solutions for virtual services, data center and secure network data services. Guiding prospective customers through sales cycle.
