Graphic Design Pre-Major Program

Sept 2017 – Jan 2018

Provo, UT

Seattle Central College

Associates Degree in Web Design

2014 – 2018

Seattle, WA

- *President's List: 7/10 quarters*
- *Dean's List: 9/10 quarters*

PROJECTS

Website for Seattle Hiroshima Club - seahiro.org

Spring 2016

- Worked on a team to build a website for a local non-profit organization
- Designed custom PHP templates from HTML & CSS to be used as a theme on Wordpress
- Purchased and set up a database plugin for Wordpress so that the non-profit can let members make accounts and view pages that would not always be accessible to the general public
- Set up a PayPal account to be used in connection with the Woo Commerce Wordpress plugin to allow members to pay dues as well as others to donate directly to them
- Used media queries to make the website responsive and compatible for different screen sizes

Website for LucaLight - lucalight.com

Spring 2017

- Created a custom Wordpress theme to maintain the original look and feel of the website
- Added plugins that would be useful and add functionality to the website as well as be easy to maintain for the owner, like a photo gallery
- Used media queries to make the website responsive and compatible for different screen sizes

- Created a complete restructure of the website to give it a more professional look while making it easier to navigate
- Wrote several main categories for the content, decided the best order and flow and then added the rest of the content to the main categories
- Designed a one page fluid responsive site to give it a more modern look and feel while making all of the necessary information even more accessible
- Used Photoshop and Illustrator to edit and revise images on the website

TECHNICAL COURSEWORK

Web Development:

- Web Authoring I, II, III
- Web Applications Programming I, II
- Content Management Systems
- Database Development
- Introduction to JavaScript
- Information of Computing Concepts

Technical Work Experience:

- Work Experience in Computer Information Systems
- Capstone Project
- Internet Law
- Working on a Web Team
- Intercultural Communication

Web Design:

- User Interface Design
- Advanced Web Design
- Typography for the Web
- Theory of Web Design
- Design Composition
- Photoshop for the Web
