## EXPERIENCE

### **Freemont Metal, Kent, WA** - *Bender and Installer*

May 2018 - Oct 2019

- Operated the forklift to load and unload sheet metal. Follow shop drawings and blueprints to bend and make what the customer ordered. Install parts on the building. Follow all safety rules on the job site. Would train guys and sometimes fire people

### **GND LLC., Rush City** - *Owner, Forman, Customer Support, Human Resources, and Sales*

Jan 2015 - April 2018

- As an owner and employee for a company my associate and I started means I would hire and fire people. Dealt with customers or Job supervisors daily. Would find work and bid on the jobs. Would make sure hours for employees were turned in every week

---

**Plastec Corp, Rush City - Lead Operator, Back up Lead Operator, Operator, and Warehouse**

Jan 2015 - April 2018

- Duties were an Operator, Lead Operator, Back up Lead Operator, and Forklift in the Warehouse. Forklift certified in MN and WA state. As a lead I would make sure people had labels, boxes, and all the inserts needed to do the job. Would also cover their machine, so everyone got breaks and gather all the information on how much they got done and how much they scrapped thru out the day.

## EDUCATION

- **Pine City, Pine City, MN - Diploma**

Jan 2000 - July 2002 with 3.7 GPA

- **Pine Tech in Pine City MN and studied Welding and completed**
- **Pine Tech in Pine City MN and studied a intermediate introduction into welding and completed**
- **Summit Academy in Minneapolis MN and graduated top 3 in class out of 200 people. 20 week program on Carpentry**

## AWARDS

The awards I have earned and gained thru my career in Construction is the abilitie to work hard while maintaining Safety for myself and all co-workers. My greatest reward in life is my children.
