SUMMARY

- 12+ years of experience in software building from scratch
- I have more than 5 software patents
- I worked up my way from a Junior programmer to a startup leader

SKILLS

Languages: C#, T-SQL, Delphi, php, JS

Methodology: Scrum, Kanban

Databases: SQL, MySql

Accomplishments:

- Designed and implemented the system from scratch
- twice among the winners of Startup competitions
- increased uptime in 40%
- improved performance of SQL-queries in 4-5 times
- shortened release time in 20%

WORK EXPERIENCE

Project Manager, AutoTech, Kaliningrad, Moscow, Russia

Nov, 2016-May, 2020

Project: Research and development of eCall and ERA-Glonass systems, team of 5

Accomplishments:

- Designed and implemented the system from scratch (software and hardware)
- twice among the winners of Startup competitions
- Managing teams

Technologies: C++, PHP, Angular, Kanban

Senior Software Developer, QB NEW Media, Hannover, Germany

Jan, 2015-Oct, 2016

Project: software for warehouses, internets hops, services, parts

Accomplishments:

- increased uptime in 40%
- improved performance of SQL-queries in 4-5 times
- implemented additional systems

Technologies: C#, SQL, Windows Mobile, Kanban

Software Engineer, SVService, Kaliningrad, Russia

Jun, 2012-Dec, 2014

Project: software for transportation companies

Accomplishments:

- Designed and implemented system from scratch
- improved performance of SQL-queries in 2-3 times
- implemented report systems

Technologies: C#, SQL, Kanban
