Good Day,

It's time to get back into the game. I took the last three months off, to breathe a little and to explore other opportunities. As the Sr. Designer over at US Merchants, I spent the last 3 ½ years re-creating all their marketing materials, from press sheets, brochures, packaging to 3D renderings. My entire career dates back to my Silicon Valley years up in Northern California. Since my college years I worked with many tech companies, as a contractor, employee, or creative lead Designer.

Please take a look at my work.

I'm right down the street, available to meet anytime during the day. Thanks

Sincerely,

Luis Alonzo
