Education

Bachelor of Science in Information Technology

December 2020

Arizona State University, Tempe, AZ

Experience

Technology Consultant, ASU University Tech Office

Feb. 2017 – July 2019

- Performed troubleshooting and repairs on hardware and software related issues to customers.
- Applied software related fixes to customer devices on a wide range of operating systems (Windows, Mac, and Linux).
- Independently maintained and repaired approximately a hundred iMac lecterns and AV systems.

Technology Consultant Lead, ASU University Tech Office

July 2019 – Sept. 2020

- Trained new employees on department policies and procedures.
- Supervised coworkers on compliance with department and university standards.

Team Projects

IFT Capstone Final Project

Jan. 2020 – Nov. 2020

- Worked on a team of two to develop a fully functioning online website geared towards a specific user base.
- Gained extensive experience in time-management and project management to complete important milestone deadlines.

VP/Project Manager of F.I.R.S.T Robotics Team #585

Aug. 2012 – June 2016

- Several years of experience operating hand tools, power tools, and electrical equipment.
- Comprehensive experience constructing a robot made of fiberglass for a 6-week build period every year.
- Focused on successfully maintaining overall schedule and deadlines.
- Delegated roles and tasks to a team of roughly 20 people in final year of high school.

Skills

- Extensive knowledge of Python, HTML, CSS, and JavaScript languages.
- Experience in shell scripting (bash) on Linux distros installed locally and Virtual Machines.
- In-depth knowledge of Microsoft Office Suite (Outlook, Word, Excel, PowerPoint, Access).
- Experience using internal tools Slack, ServiceNow, and Salesforce in a fast-paced work environment.
