## **Honest and trustworthy**

Las Vegas, NV 89148

[stixxboy@hotmail.com](mailto:stixxboy@hotmail.com)

702-466-0636

Looking to work remotely for a strong and forward thinking company in their IT department so that I can further my knowledge base and excitement over IT as a whole. Currently passed my CompTIA ITF + and am now enrolled in Courceras Google IT support program and projected to finish end of year. I then hope to go for more SQL certifications.

Authorized to work in the US for any employer

## Work Experience

---

### **Student**

Coursera - Remote

April 2021 to Present

I am currently enrolled in the Google IT support program by Google and am projected to complete the course by 4th quarter and will be taking the A+, Linux+, Oracle SQL cents and many more soon after.

### **Owner**

Cmd imagery - Las Vegas, NV

March 2020 to March 2021

CMD Imagery was a 3D virtual tour company that I started in the midst of the pandemic because I thought it could help real estate agents sell homes faster and with better 24hr open houses with the tours and models that one can create with the cameras used. Was learning how to use the Matterport API for Model commands to search, read, and/or change model data.

### **Crew Lead**

Kakivik Asset Management (SUB-CONTRACTOR for BP)

April 2018 to March 2020

Crew Lead and Subject Matter Expert for multiple crews in Ultrasonic inspection and radiography. Responsibilities included: performing inspections on Process Piping and other BP assets in the north slope of Alaska utilizing rope access for remote access locations, building work packages and attached isometric drawings for inspection frequencies, performing quality assurance audits on previously inspected locations for BP, constant face-to-face with leadership for BP, providing clear and consistent information and customer service for the fluidity of the internal inspection program.

### **NDT Level II Inspector**

Mistras Group INC

December 2013 to April 2018

Gamma X-ray and Ultrasonic inspection on process piping from drill sites to gathering centers on BP north slope field. Responsibilities included: managing and building MIMIR work packages (program), correcting and completing layout using rope access (as well as on ground), utilizing isometric drawings to identify piping selected for inspections in the facilities and the specials department.

## **NDT Level II Inspector**

Acuren Inspections (sub-contractor to bp)

September 2009 to December 2013

Carded Radiographer set forth to X-ray and UT (ultrasonic testing) piping for corrosion rate monitoring systems set forth by BP. Responsibilities included: performing inspections in the External Inspection Department- this included X-ray and Gamma radiography, and Corrosion Under Insulation (CUI) inspections. Also worked in the Internal inspection department Responsibilities included: performing Gamma X-ray and Ultrasonic inspections. Responsibilities included: Utilized Rope Access in both departments on multiple cases.

## **NDE Level II/Sales/Customer Service**

Davis Laboratories

May 2005 to September 2009

Worked on projects that required radiography to be performed to multiple codes which included the American Welding Society (AWS), American Petroleum Institute (API), The American Society of Materials and Evaluation (ASME). Responsibilities included: Performing concrete x-ray using Iridium-192(IR-192) and cobalt-60(CO-60), performing concrete penetrating radar, performing Fluorescent and Color contrast Liquid Penetrant Testing, performing Magnetic Particle Testing using both Yokes and Stationary benches on various parts, using shooting vaults with X-ray tubes to shoot a variety of different items, was hand-selected to recruit perspective new clients and expand existing client base in the companies San Francisco, CA office, providing customer relations and service for all remote clients in Northern California.

## **LEADERSHIP**

As a level 2 in the NDT industry, I was always given new technicians who needed a strong leader to model the integrity that is needed to succeed in the industry. I have personally trained dozens of quality techs that have gone on to further their career exponentially. As a Crew Lead, I had to constantly be on my toes and think quickly to keep crews working when things did not go as planned; due to something as small as scheduling errors or as big as entire plant upsets.

## **Education**

---

### **Graduate Equivalency Degree (GED)**

## **Skills**

---

- 10+ years as a certified RT (Radiographic Testing) level II (10+ years)
