Windows/Mac

Office suite

G suite

English and Spanish

PROFILE

My creativity and energetic attitude make me a great problem solver. I'm able to handle multiple tasks while working well under pressure. My competitive nature motivates me to go beyond my limits. My work style is fast paced, driven by efficiency, while delivering professional and quality results. I'm a very fast learner and a flexible thinker. The more I work the more I learn about achieving perfection in a very short term.

EXPERIENCE

I've been a freelancer since 2019, working on student projects, or international design and illustration requests (Logo and brand design, digital portraits, rendering, video editing,).
