Summary

Beginning in the late 1980's, at the Age of 22, I began my career in the Construction Industry. I started out doing repair work on residential apartment buildings and homes. After a few years I grew the business into a General Contracting Company working on light commercial and multifamily structures involving fast tract remodels. Later, with two partners, I expanded into developing commercial properties that I served as the General Partner. I managed the projects through all phases of the construction process, and upon completion handled the day to day of leasing and sales with various tenants uses. The most recognized skill I have come to appreciate after all the years in this business is the ability to be a problem solver. Wearing all the different hats and the diversity of the type of business each day, took being able to assess problems and situations efficiently and executing a plan that maintained excellent service for my customers and tenants.

Education

Montana State University

Business Management/ Technology Education,

Bozeman, Montana

Enrolled September 1985

Upon graduating from High School I attended Montana State University. I began my studies at the University in Business Management, then transferred over to a new program of Technology Education. Additional education would include a strong background in Law and the legal process. I have over thirty years of commercial/ residential real estate leasing experience of properties owned or managed as the General Partner. I currently hold a Washington State Real Estate Brokers License. Have an extensive knowledge in the building trades working with residential and commercial construction projects. I am quite familiar with the operation of heavy equipment, trucks, trailers and machinery.

Employment History

Haggerty Management, LLC

*Independent General contractor, Investment Property
Management, Real Estate Broker, Equipment Operation*

August 1988 - Present

Hobbies & Interests

Since moving to Washington in 2004 I have really enjoyed Sea Kayaking. We look forward to day trips out in the Salish Sea or extended camping in the San Juans Islands and touring up into Canada. I have recently started playing pickleball with several of the local clubs in our area. The sport of Pickleball is a lot of fun, requires skill and teamwork. Overall, just great exercise. I also enjoy the occasional ski trip up to Stevens Pass or other ski areas.

Professional Skills

General Contractor
Washington Real Estate Broker
Heavy Equipment Operator
Property Investing and Management
