Work Experience

Cannabis Consultant

Vallejo Holistic Health Center - Vallejo, CA

January 2019 to Present

Responsibilities include managing the clone section, keeping up a high energetic / positive attitude, maintaining a top sales position, keeping tabs on inventory, and being able to address patient needs based off of preference of patient ingestion. My strongest attribute as a Cannabis Consultant would be my overall level of product knowledge. We carry a lot of different companies at VHHHC and it's rare that we have the same consistent product in stock so its best to understand the breakdown of each product and know why its effective so you can recommend something of equal or greater value.

Assistant Manager

Zumiez Inc - Napa, CA

September 2018 to January 2019

responsibilities include managing sales team, managing online orders and shipment, while also creating a fun and competitive work environment.

Delivery Driver

AMAZON AMZL - Richmond, CA

April 2018 to August 2018

Responsibilities are delivering packages for Amazon in a safe timely manner

Senior Account Manager

DDI Consulting - Sacramento, CA

March 2016 to July 2016

My job was to manage all of my customers accounts personally and also using the most effective sales techniques possible in order to be successful. I was promoted a month after working with DDI and became a leader in the business
