Work Experience

IT Support Technician

The Best Stop Insurance | January 2015 - Present

- Troubleshoot office device malfunctions
- Update and maintain the company network
- Communicate any changes to the business owners

Education

Bachelor in Computer Engineering

Cal State University, Fullerton | 2019

Projects

Secure Package Box | May 2019

As a team, we developed a digitally managed mailbox enabled with an automatic locking mechanism, facial and voice recognition features all of which were compatible with a mobile application.

This project was developed using MIT App Inventor, Arduino, and Raspberry Pi.
