ABOUT US

We provide high quality and secure GPS, GSM Vehicle Tracking and security systems. We install and maintain systems for Online Vehicle tracking, Fuel and Mileage Tracking, SMS Tracking as well as GPS and GSM Car Alarm systems. We provide solutions for all your tracking needs be they for vehicles or assets.

OUR MISSION

To deliver the highest quality of professional private security services that exceed our clients specific and customized security needs.

OUR VISION

To be the most efficient and proficient provider of security solutions that earn recognition for excellence, ethics and professionalism.

VEHICLE TRACKING

Our Systems provides an easy way to track your vehicle from anywhere any time. Its features include:

- 1) 24/7 emergency button
- 2) Tracking by time interval
- 3) Detailed trip and route history
- 4) Low battery alert/notifications
- 5) Latest GPS/GPRS/GSM technology
- 6) Set over: speeding alert through SMS
- 7) Set maximum speed for the vehicle through SMS
- 8) Stop and start the car by SMS
- 9) Restricting the car from leaving a given area (Geo-fencing)
- 10) Android/iOS application

FLEET MANAGEMENT

The fleet Management services is based on GPS/GPRS/GSM technology. This offers companies a way of monitoring all their vehicles with a 24 hour internet accessibility of fleet history.

The information recorded includes:

- 1) Vehicle speed
- 2) Vehicle position
- 3) Stop hours and ignition state
- 4) Detailed movement reports
- 5) Android/iOS application
- 6) Engine immobilization

MOTORBIKE/TUKTUK TRACKING

Features include:

- 1) Real Time Tracking
- 2) Mobile Tracking
- 3) Engine immobilizer

FUEL MANAGEMENT

Fuel level sensors are used to measure the fuel level in the fuel tank. The sensor can be used in conjunction with the equipment that supports a unified communication protocol or processing of the status signal. It is compatible to different control measure instruments and equipment of GPS monitoring.

Features include:

- 1) The most accurate fuel level controlling
- 2) Precise fuel analysis
- 3) High efficiency fuel consumption management
