

# **Jason Heyne**

## **Communications Technician**

**Medford, OR**

**458.226.5603**

**[Jasonheyne314@gmail.com](mailto:Jasonheyne314@gmail.com)**

A well-rounded Field Technician with a wide variety of skills for both deployment and installation of Communications Equipment.

### **SKILLS**

- Working knowledge of VOIP hosted PBX environments and legacy PBXs
- An ability to adapt to all installation environments
- Highly skilled at surveying and completing simple or complex cabling or Comm system installations
- Current IPC Certified Soldering skills

### **EXPERIENCE**

**Ascentron**

**White City, Oregon**

**Soldering Technician**

**July 2017 - Dec 2017**

**Became certified to solder components to PCB boards, worked as part of an assembly crew.**

**IKonectu**

**Nashville, TN**

**IT Technician**

**March 2016 - June 2017**

**A one person outfit, this was me doing the installations for a friend who owned an IT consulting firm in Nashville, Tn.**

**I installed gear in rural areas to boost cell signal strength, deployed wifi networks in high-rise buildings, and built/terminated network racks.**

**Impulse Advanced Communications**  
**Santa Barbara, CA**  
**Service Implementation Technician**  
**April 2012 – May 2014**

**This is where I was able to see the other side of the installation, and work for a Managed Service Provider. Coming from a legacy PBX environment, this company needed my skills to ID various circuits from whomever, and bring those circuits to the customer premises. I also performed site surveys for the phone installations, learned how to navigate my way through network gear with a usb cable and some sort of CLI, and trained companies on their new phones.**

**Bassett Medical Center**  
**Cooperstown, NY**  
**Communications Technician III**  
**February 2011 - December 2011**

**A large Healthcare facility. I received a lot of corporate training here, including how to behave properly and respectfully towards your co-workers. My core role was to support the Enterprise PBX located at the main Hospital facility, as well as the private branches at the clinics, all over upstate NY.**

**Automated Answering Systems**  
**New York, NY**  
**Telecommunications Technician**  
**April 1999 - April 2004, June 2008 - January 2010**

**Where I started as a Technician. I worked my way up from being hired as a cable runner to learning and programming the Partner ACS system, after that it wasn't long before I was out on my own, performing site surveys for CAT3/5 installs all over New York City. Became accustomed to remote programming and high pressure environments.**
