

AARON BISHOP

Tempe, AZ 85283

brycebishop92@gmail.com

6026143839

I am a current student at Mesa Community College working towards a degree in Networking and Cybersecurity. I have taken several Cisco classes and have finished the CCNA Cisco Networking Academy at MCC. I am also studying for CCNP certification when next semester starts as well. Other classes I have taken have given me basic exposure to Windows Server and VMware. I have been building computers as a hobby for over 10 years and in 2018 I started building and fixing computers as a side business. I am not new at all to building or troubleshooting and I am confident I could fix almost any issue an entry-level job would need me to. I am currently looking for an entry-level position in IT or networking to help add to the experience I have been getting in school.

Willing to relocate: Anywhere
