Objective

To seek a position that will grant valuable work experience and to gain skills in computer and information technology fields.

Experience

Lab Technician, Novus Labs

- **July 2020 – Present.** On a daily basis I work with IoT devices and test them in various situations and environments. Collecting and logging data is part of the testing process as well as coordinating with other team members on various tasks.

Fruit Coordinator, Blue Star Refreshments

- **October 2019 – June 2020.** I oversee the fruit department at this business which duties include: ordering fruit/product daily for all accounts and packing them for delivery, managing a small team and instructing them on their daily tasks, maintaining a clean work environment and general physical labor that is needed throughout the day.

Warehouse Associate, Blue Star Refreshments

- **August 2017 - October 2019.** Associates rotate/stock food and drink product daily that are stocked in the warehouse as well as unload product from trailers. One responsibility that I'm designated for is working in the cooler where I rotate/stock product daily.

Part-Time Sortation Associate, Amazon

- **August 2016 - June 2017.** Sortation Associates at Amazon are required to take packages and boxes from a loadline or belt and place them on different pallets across the work floor. Boxes are scanned using Symbol devices.

Shipping/Receiving Clerk, Corsair Memory Inc.

- **October 2014 - August 2016.** Using the Oracle platform, clerks are responsible for confirming orders and making special labels per customer requirements. Also used FedEx and UPS shipping management systems to ship merchandise and pallets. Became certified in operating a forklift and a man-lift

Package-Handler, United Parcel Service

- **May 2013 - February 2014.** Handled package delivery from loadline to multiple delivery trucks.

Merchandise Pick-Up Associate, Sears

- **October 2011 - October 2014.** Bring out merchandise that is held for customers, maintain the back stockroom, unload weekly merchandise trucks, help customers process repairs for their merchandise, and assist other departments with tasks and duties.

Education

- Graduated from Downtown College Prep (San Jose, CA) on June 13, 2008.

- Attending Chabot College (Hayward, CA) 2019 - Present for software engineering

Certifications

- CompTIA ITF+ (Certified January 2020)
