

Jeff Boyd

ABOUT ME

Being a designer is a lot more than just being simply 'creative. I am inspired everyday to visually create in order to benefit any client for the better. From web, print, digital, corporate branding identities to social media campaigns, essentially, I'm skilled in all design disciplines.

In my free time I love being a boy dad to an amazing 10 year old. I am a fishing addict and love doing competition BBQ with my friends back in the South.
