# **Technical Project Manager Black Box Corporation**

Los Angeles, CA

10/2018 - 03-2020

Organized and facilitated Agile and Scrum meetings, which included Sprint Planning, Daily Scrums, Sprint Check-Ins, Sprint Reviews and Retrospect's.

Coordinated with system partners to finalize designs and formalize requirements utilized in backlog. Sizing and planning poker techniques as needed based on the length of the backlog and priorities.

Delivered project needs on time and within the agreed acceptance criteria in a Waterfall Methodology, as they attempted to transition to an Agile Methodology.

# Point of Sale Systems Field Engineer 7-Eleven U.S. Corporate

Arcadia, CA

09/2009 - 09-2018

Managed an extensive group of 7-Eleven stores (corporate and/or franchise) within the Southern California area to ensure the highest levels of network and point of sale (POS) support

Implemented NEC Corporation of America (NEC) new exclusive point-of-sale (POS) provider to 8,600 7-Eleven stores, provided and integrated advanced IT, communications, networking, retail, and biometric solutions

Monitored and ensured accountabilities for all technological aspects of store operations, provided advice, coaching and assistance to all point-of-sale technicians

Performed daily typical migration procedure such as client data backup and recovery, loading business application packaged software pushed through remote network

# **Project Manager**

ANOVE Rochester Institute of Technology

Little Rock, AFB

12/2005 - 08/2009

Leveraging entrepreneurial project management products at Rochester Institute of Technology to deliver a full range of power engineering and converting audio to real-time captioning on web service

Developed power system design, raspberry pi, built-in microphone, monitoring, updated schedules for the project during planning and implementation phases, supervised project lifecycle, and conducted marketing and software testing

Managed the team in drafting requirements content for product design and implementation

Organized team charter and coded all documents related to conversion of spoken sound to real-time captioning by using automatic sound recognition (ASR) using Google services with 90-95% accuracy

Increased domestic and international potential clients through gathering and developing requirements including risk management to minimize our potential loss, and backup with the option to liquidate

Developed and monitored analyses in defining project deliverables, including project phase, requirements, system design, and status of tasks

Monitored and ensured the success of formulated risk management plans when tracking project deliverables, implementation, and managed project changes and interventions

Collaborated with my team and RIT professors in developing and presenting reports on project progress and memoranda for attorney partners and maintained communication with project stakeholders
