RELEVANT EXPERIENCE

Pressert Marketing - *Web Developer / Designer*

September 2020 - Current

- Use WordPress & Elementor to build elegant websites. I managed over 30 other websites within the company's portfolio of hosted domains. I use App builders like BuildFire to create PWA based iOS and Android apps. I build e-Commerce websites with Woocommerce and Shopify. I have set up multi-vendor e-commerce stores using Dokan and maintained website plug-ins and upgrades. I am in charge of the design, planning, and creation of the websites and apps for our company portfolio of assets. I also worked with some PHP, CSS, JS, and back end server support.

General Assembly Software Engineering Immersive

May 2020 - August 2020

- Full stack development. (MERN, PERN). I conducted weekly projects, daily code projects and larger team projects among others. Everything

pushed to Github repos and workflow was done in VS Code. Worked in React.js, JavaScript Python/Flask and Node.JS while incorporating industry standard workflow practices.

Freelance Web Developer - *Web Developer*

October 2016 - April 2020

- I used Wix and Webflow to build and design websites for myself and clients. Some of the websites I made are: e-commerce, sale-funnels, finance, real-estate agent pages, and sites for local small businesses.

Giftsomore.com - Web Designer & Senior Sales Manager

October 2010- July 2012

- I was in charge of a small online company called giftsomore.com. The company was sold in 2012. I was in charge of the Google AdWords account and early website design. We created online ads and tracked our KPI's. My other duties included contact with vendors and as well as design and building out the different growing pages of the online store. It started with Wix then migrated to Shopify. (e-commerce)
