Aramark, Bellingham — *Lead Cook*

October 2011 - September 2017

Delegated daily work assignments to a food service team and oversaw the completion of tasks

Trained and mentored staff on job duties, proper food safety and sanitation procedures, cooking methods, etc.

Maintained excellent customer service and positive attitude towards guests, customers, clients, co-workers, etc.

PROJECTS

Munin Monitoring Server

Deployed and managed a monitoring server on Bellingham Technical College's network. This was accomplished using Ubuntu Server 18.04 LTS, Munin, and Munin nodes running on both windows and linux servers. This allows faculty and staff to see resource trends and usage statistics for the machines being monitored and has also been used by instructors to demonstrate server and network monitoring tools in the classroom.
