Technical Skills

React, Python, HTML, CSS, Javascript, Node.js, Bootstrap, Express, MongoDB, JQuery, GitHub, MySQL, API's, Java, MVC, Postman, VS code, Spring Tool Suite, Figma, Balsamiq, Flask, Amazon Web Service (AWS)

Recent Projects

"**Shopping with A Cookbook**" | April 2020 | Oakland, CA
- ❖ Used the Spoonacular API with React to enable users to interact and personalize recipe searches.
- ❖ Mapped through API objects to return JSON data to display on a results page.
- ❖ Constructed responsive results page using Bootstrap to show different recipes for an ingredient.
- ❖ Utilize Balsamiq.com to create wireframes to visualize and prototype front-end functionality.

Course Manager | Mar. 2020 | Oakland, CA
- ❖ Used Java and Spring Tool Suite to manage Many-to-Many Relationships between models.
- ❖ Integrated front-end validations with HTML and server-side validations with Bcrpyt for enhanced security.
- ❖ Designed front-end of application with Bootstrap to create a responsive and eye-catching look.
- ❖ Built registration and login pages to allow for multiple users to input courses and instructors.
- ❖ Tested back-end functionality using MySQL Workbench to ensure users and courses were created.

"**Tell Me Where To Go**" | Feb. 2020 | Oakland, CA
- ❖ Constructed login and registration validations with VS Code.
- ❖ Formulated Models and HTML pages for user-friendly experiences.
- ❖ Used Postman to verify API endpoints to ensure the validity of data.
- ❖ Utilized Bootstrap to design web pages for easier navigation for users.

Education

NuCamp | Full-Stack Developer Bootcamp | Graduated   2020
- ❖ MERN Full Stack Development, Bootstrap, React Native

Coding Dojo | Full-Stack Developer Bootcamp | Graduated   2020
- ❖ Python, Java, and MERN Full Stack Development
