# RYAN  BECK

424 S WESTMORELAND AVE UNIT 207,  LOS ANGELES, CA 90020  ·  (323) 513 - 7894
**RYANSCBECK@GMAIL.COM**

I had my own reasons not to pursue my engineering career.  It was the right choice at the time, and I never regretted it.  Now, I am in a better position, and I can afford to start a new career that I am actually passionate about.  I have been teaching myself and learning about troubleshooting computers on my own.  I have been performing a basic helpdesk role at work and friends' machines.   I recognize that I do not have any certificate.  However, I am very confident that I will be a great team player and even an asset to your team with a basic training.

## EXPERIENCE
