Centralia ARES is a group of licensed Amateur Radio operators that volunteer to help the community when communication breaks down in an emergency situation. The group is trained to oversee shelter setup, airlift evacuations, establishing communications to it's served agency of the City of Centralia, and the WA State EOC at Camp Murray. Team members must go through FBI background checks to be granted access to Police and Fire facilities. Centralia ARES has held joint exercises with the WA State Guard, and Riverside Fire Authority. I plan on becoming more involved with them now, considering recent developments with COVID-19.
