Objective

Motivated security professional looking to transition into an information technology role fulltime; where I will be able to contribute my skills in networking technology and general IT to the success of the organization.

EXPERIENCE

Inter-Con   *Security Guard*   Long Beach, CA   May 2013 – present

Ensured a safe and secure environment at client sites by monitoring and security assessments.

Adept in interpersonal communication when dealing with clients and their security needs.

Assisted law enforcement officers with security incidents.

Conducted patrols to maintain a site's security posture.

Managed and logged client's and contractor's traffic at access points.

Acted as gatekeeper and monitor, ensuring client sites are secure.

Arey Jones   *Computer Technician*   Whittier, CA   Apr 2020 – Jun 2020

Diagnosed computer hardware issues and corrected faulty units.

Provided audio connectivity by terminating phone jacks.

Recommended changes to computer hardware to enhance functionality.

Detail driven to identify issues relating with hardware.

Removed viruses through a combination of Malwarebytes and re-imaging if needed, to secure end user device.

Lead roll out of new hardware to clients.

Excellent ability to analyze hardware issues and take action to prevent damage.
