PROFILE

I'm a software developer & web designer who's always seeking out opportunities to be challenged/learn! I'm a graduate of The Tech Academy's Software Developer Bootcamp where I intensively studied a variety of programming languages and development technologies. I'm ready to take this knowledge in a new professional direction.

WORK EXPERIENCE

FULL STACK DEVELOPER - 2020
Prosper IT Consulting - Portland, OR

Two month internship working on multiple projects in AGILE/SCRUM development environments. Working with a team of fellow devs, our first project was developing a Django based web application that stored user input with various model relationships into an SQL database. Second project was an ASP.NET based CMS for a local production theatre where I debugged various backend problems and made adjustments to site styling.

TECHNICAL SUPPORT REPRESENTATIVE - 2013
Stream Global Services - Beaverton, OR

Direct phone support for leading video game console. Assisted customers with billing and transactions. Provided technical troubleshooting for problems related to network connections and system memory.

WEB CONTENT MANAGER - 2012
Pearl MedSpa - Portland, OR

Designed and coded marketing emails. Updated and constructed promotional materials for business's website. Assisted with IT problems and attended weekly marketing/strategy meetings.
